Flightstar offers discounts on HAPP and 20BR engine upgrades with STC purchase.

Champaign, IL (KCMI) – October 31, 2016 – Flightstar Corporation announces new incentives coupled with the purchase of their ADS-B OUT STCs for the Learjet 40 and Learjet 45.

Flightstar is offering a pair of incentive deals to operators who purchase their ADS-B STC. Purchasing either STC entitles operators to 3 years of Honeywell Avionics Protection Program (HAPP) discounts. This discount program reduces the purchase price for new or current plans by 30% the first year and 20% the following two years.

Included in this incentive program is a Merchandise Credit Voucher (MCV) towards the engine upgrade of a TFE731-20AR to 20BR. Following the installation of the Flightstar ADS-B STC, this \$49,000 MCV will be made available for a period of 9 months.

“Flightstar is excited to offer even more incentives for operators to complete this required mandate. With the current programs in place, now is the time to equip your Learjet 40/45,” stated Greg Vail, Flightstar Avionics Manager.

These incentive programs are currently scheduled through the end of 2016, contact Flightstar for addition details.
