Flightstar Completes Hangar Project and Starts Refurbishment of Another.

Champaign, IL (KCMI) – December 07, 2016 – Flightstar Corporation announces the completion of their newest facility, Hangar 10. This 31,000-sq-ft aircraft maintenance hangar will serve as the primary facility of the Flightstar Airline Division.

Hangar 10 features a 135' wide by 34' tall Mega Door System, radiant floor heat, and LED lighting. With the completion of this new facility, work now shifts to the refurbishment of the attached Hangar 3. This hangar will be primarily used for the daily maintenance operations of larger corporate aircraft and is scheduled to be operational by early spring of 2017. These two structures combined account for a total of 52,000-sq-ft of floor space, bringing Flightstar's total hangar square footage to over 112,000.

"The completion of this new facility is an exciting day for the Flightstar team. This additional hangar space allows Flightstar to continue to offer exceptional service today, and well into our future," stated Bill Giannetti, Flightstar President.
